XVR5108-I3 cannot recognize wifi module

1. **Product Model、Version：**

XVR5104/08-I3

2. **Description of the problem**

The wifi module does not work when XVR5108H-I3 is connected to wifi module

3. **Problem Processing(Root Cause)**

a. Confirm that the wifi module used by the customer is EW-7811UTC, this model is in the wifi module compatibility list.
b. Confirm with the site that the wifi model used by the customer is a new version of the black module. At present, the XVR baseline version program of this model only supports the white module and does not adapt to the black module.

（black module）　　（white module）

4. **Solution**

Submit custom requirements compatible with white modules.

For XVR products before the release of I3, only EW-7811UTC white module is supported, and the support for XVR products after the release of I3 is as follows：

white module	white module + black module
XVR1B04-I、XVR1B08-I、XVR1B16-I、XVR1B04H-I、XVR1B08H-I	XVR1B16H-I
XVR4X04-I、XVR4X08-I、XVR4X16-I	XVR4232AN-I
XVR5x04-I3、XVR5x08-I3	XVR5x16-I3
XVR5x04-4KL-I3	XVR5x08-4KL-I3

If the customer is not using the wifi module of the EW-7811UTC model, it is also necessary to provide customized requirements.
